**Q&A No. 1**  
**SOLICITATION NO. DHCD-18-05 - REISSUE**  
**TURNSTILES**

The following questions regarding the subject RFP have been submitted by vendors. The answers provided by DHCD are intended to clarify the IFB's requirements and do not constitute an amendment.

Vendor Question	DHCD Answer
1) There had been some discussion about the requirement of being a certified Kantech Access Control integrator to perform installation of the new panel along with the new turnstiles. Is that a requirement for the contractor? Also, if you are a certified Kantech integrator, is there a requirement for a Maintenance contract for the Kantech ACS after installation?	Bidders need to be able to integrate with our system. It can be themselves or a licensed professional to safeguard for repairs or mishaps. It is not a requirement but to simply have the capabilities & resources.  As far as the requirement for maintenance contract that will have to be something that Deb can give the o.k. on. I would suggest that to be a yes but we would also have to consider the fiscal impact plus another contract that will have to go through legal. The RFP did not require maintenance.
2) IST questioned whether DHCD was going to block the area between the turnstile and the wall with a desk, or if there would be a need for a gate to be added and installed?	We are looking to do a spacer wall. We are not sure as to how much space we will end up with and even with that spacer wall there will need to be a barrier in case that glass is ever broken. Security desk is providing blockage on one side of the turnstiles and a panel on the opposite side
3) How many turnstileS?	2 - 1 ADA accessible & 1 standard.
4) Is a gate required?	No gate needed or to be installed.
5) Is the Living Wage Affidavit required?	The Living Wage Affidavit is only required when services are \$100,000.00 or more, no Living Wage Affidavit is required.
